Profile:

Software Developer specializing in frontend and cross-platform development, with strong expertise in React, Next.js, TypeScript, and Flutter. Passionate about building modern, high-performance digital products that deliver seamless user experiences.

Experienced in developing responsive interfaces and scalable applications, with the ability to translate complex requirements into clean, maintainable, and production-ready solutions. A proactive problem solver and collaborative team player, focused on delivering impactful results.

Portfolio: <https://ghadamohamed.com/>

Internships:

Intensive Training Program (ITP)

October 2025 – May 2026

Frontend & Cross platform track.

Information Technology Institute (ITI), Damietta Branch

Flutter project:

E-Commerce Store App |Flutter |Final Project

[Link](#)

- Built with Flutter using Bloc/Cubit for state management, featuring product browsing, cart management, and clean, responsive UI integrated with REST APIs.

E-Commerce Store App

[Link](#)

- built with Flutter using Bloc/Cubit for state management, featuring product browsing, cart management, and clean, responsive UI integrated with REST APIs.

News App

[Link](#)

- Built with Bloc/Cubit for state management. Integrated REST APIs and implemented search functionality with clean UX and error handling.

Firebase Student Manager App

[Link](#)

- CRUD application using Firebase (Fire Store-Authentication) for real-time data Management.

E-Commerce Store UI App

[Link](#)

- Responsive E-commerce Flutter UI with clean architecture and reusable components (Product listing, Categories, Product details, Cart, Checkout screens).

Web project:

Harfey

[Link](#)

- A comprehensive platform connecting clients with service providers (craftsmen/artisans). The application facilitates service requests (both direct and instant), real-time order tracking, secure payments, and community interactions. The platform is managed through a robust admin dashboard.

Online Store

[Link](#)

- A modern e-commerce platform built with Next.js, featuring secure authentication, dynamic product management, and optimized performance.

Education

Graduate School of Statistical Research

2023- present

Computer Science Diploma

Bachelor of Science in Financial Accounting. Grade: Good
Cairo University

Technical Skills

Frontend:

HTML & CSS	ES Next
jQuery	TypeScript
Responsive Web Design	Bootstrap & Tailwind CSS
React JS	Next.js

Backend:

C++	Object-Oriented Programming (OOP)
Node.js	Firebase (Firestore, Authentication)
REST APIs	Python

Flutter(mobile):

State Management (Bloc, Cubit)
Navigation
Handling application flow.

Git & Version Control: [GitHub](#)

Architecture: Clean Architecture, SOLID principles.

Programming Languages:

Dart	Python (self-Study)
JavaScript	C, C++ (self-Study)
TypeScript	

Courses & Certificates:

IBM Full Stack Software Developer Professional Certificate

Course Certification Completed:

Introduction to Software Engineering Introduction to Cloud Computing Introduction to HTML, CSS, & JavaScript

Getting Started with Git and GitHub Developing Front-End Apps with React

Course Certification In Progress:

Developing Back-End Apps with Node.js and Express Python for Data Science, AI & Development
Developing AI Applications with Python and Flask Django Application Development with SQL and Databases
Intermediate Web and Front-End Development Introduction to Containers w/ Docker, Kubernetes & OpenShift

Application Development using Microservices and Serverless

Full Stack Application Development Capstone Project Full Stack Software Developer Assessment

Generative AI: Elevate your Software Development Career

Software Developer Career Guide and Interview Preparation

Project:

Single Page Portfolio Website [GitHub](#)

Paradise Nursery Shopping Application [Link](#)

Effective Test Case and Bug Report Writing Techniques [Link](#)

Introduction to Software Testing Concepts & Techniques| Mahara-tech [Link](#)

Software Development Lifecycle [Link](#)

Course Certification Completed:

Software Development Processes and Methodologies Agile Software Development

Lean Software Development

Meta Front-End Developer

Course Certification Completed:

Introduction to Front-End Development

Version Control

React Basics

Principles of UX/UI Design

Coding Interview Preparation

Project:

Booking a table on the Little Lemon website

User Interface and User Experience Booking table

Bookstore

Engineering Practices for Building Quality Software
